MCBH Night Riding Training

- **Highest rate of accidents occur between dusk and dawn.**
- **Partnered with the Honolulu Police Department and MALS-24 Aviation Medical Safety Officer.**
- **Conducted training for HQBN Motorcycle Club.**

MCBH Night Riding Training

- **Training Curriculum**
  - **Night Vision and Effects**
  - **Rider Factors**
  - **The Roadway**
  - **Headlight Adjustment Clinic**

MCBH Utility Terrain Vehicle

- **Uses**
  - All in one cargo and people hauler
  - Used by Operating Forces in combat, PMO and MCCS

- **Concerns**
  - Growing numbers aboard MCBH
  - No governmental minimum safety regulations
  - Users unfamiliar with capabilities and limitations established by manufacturer
  - Prone to rollovers at speeds > 10 MPH
  - Minimal safety devices

MCBH Utility Terrain Vehicle

- **Recommendations**
  - **Standardization of operator PPE**
  - **Enforce a 10 MPH speed limit**
  - **Enforce seat belt usage**
  - **Establish training to ensure operators understand the capabilities, limitations and Owner's Manual.**
